NAME

Danielle's Story

THINK: Danielle made necklaces and bracelets for years. She wanted to move forward and make more money with her handmade jewelry. Danielle wanted to have her own business and needed a business plan.

PLAN: Danielle found a class on starting a small business. She thought about: how much money she needed; what to charge customers; and how to organize her jewelry to sell. She also wanted to learn how to let people know about her business.

DO: Danielle took a business class with her support person and wrote her plan. She got a business license. With support, Danielle made business cards and fliers. She put prices on her jewelry, and called stores and craft fairs. Danielle started her business and is now selling her jewelry.
